Project: Excel Dashboard

Introduction

A dashboard is a visual representation of data. It simplifies complex data in a spreadsheet and transforms it into something visual that's far easier to grasp and utilize.

Outline

You are required to create an Excel dashboard from the DataSafety dataset provided. It should tell a compelling story about the dataset. You should have a clear purpose for creating the dashboard. The metrics or key performance indicators you highlight should align with the purpose of the dashboard. Tailor the visual for the audience using the dashboard. YouTube has great resources on how to create stunning excel dashboards which you can use. [Have you seen an Excel dashboard like this? [Step by Step Tutorial] - YouTube] is an example. Submit your Excel Workbook that fulfils the requirements of this project.

Mark Allocation:

Criteria	Weight
Aesthetics (Colour schemes etc)	10
Excel Illustrations (Charts, tables etc)	30
Purpose of Dashboard	5
Flow of Story	5

Total	**50**
